Academic Projects

- Outdoor Furniture Design** (2026)
Conducted site analysis to identify spatial needs and user requirements, followed by the design and development of outdoor furniture supported by full technical drawings and construction details.
- Multifunctional Space Design** (2025)
Designed a multifunctional co-living environment with an integrated service design approach, addressing shared living needs, spatial flow, and user interactions across the space.
- Simple Furniture Design** (2025)
Designed a storage console with a focus on materiality and construction, supported by detailed material specifications and technical construction drawings.
- Hostel Redesign** (2025)
Conceptualised and developed a redesign proposal for a hostel space, focusing on functionality, user experience, and spatial identity.

- **Hospitality Space Design** (2026)
Created brand identity and guest experience, translating concepts into spatial zoning. Designed visuals and key spaces for a Heritage Resort.
- **Stool Design** (2025)
Designed and fabricated a functional stool prototype within a limited material palette and quantity, exploring efficient construction, material use, and foldable functionality.
- **Residential Space Design** (2025)
Designed a micro house based on user personas, incorporating space-optimizing strategies tailored to specific lifestyle needs. Deliverables included drawings and detailed 3D renders.
- **Field Research, Panipat** (2025)
Conducted on-site research on durry manufacturing, engaging with artisans to understand processes, materials, and craft traditions, and compiled the insights into a research report connecting traditional practices with contemporary design.

Internships

Studio Dot, Delhi

(June 2026)

Interior Design Intern

Assisted with electrical and bathroom drawings for, furniture detailing, and the preparation of furniture docketts. Contributed to the development and visual presentation of the company profile.
